Project Tasks Balance																		
Total SOLL in hours	361.95																	
Total IST in hours	385.25																	
Difference in hours	23.30																	
Project goals (milestones)																		
1. Modify the previous dataset and model, than training and testing																		
2. Inital project research																		
3. Find dataset																		
Set up development environment																		
5. Dataset Exploration																		
6. Dataset Preprocessing																		
7. Create model																		
8. Model training																		
9. Test model																		
10. Work on Newspaper																		
11. Book, Film, Poster																		
12. Export and Deploy																		
Legend																		
Time estimate in hours (SOLL)																		
Effective time in hours (IST)																		
Project objective (milestone)	-
